

50*150mm flat oval tube combines with 60*120mm oval tube, makes the machines mature and elegant.

Design the machines according to the international advanced concept and improve on the original

basis. Resistance remains steady during the entire range of motion, making the movement exceptionally fluid.

Pure steel weight plate enhances the product durability.

Training counting & training time recodes make the movement more scientific and humanized.

Full closed PVC covers with one time contoured to keep user safe, increases the attraction and underlines the high quality.

Unique separated movement allows the user practice single arm, highlights the details and humanization of the products.

Aluminum alloy pulley with $\Phi 106.2\text{mm}$, improve the durability and keep movement smoothly, it is easy to maintain.

The handle adopts TPV material, never damage and improves the durability.

Imported powder of painting, double rust clean, double lines cushion showing fashion.

The converging arc of movement provides a feeling similar to training with dumbbells.

The isolated arms movement makes the strength training more balanced and efficient.

Multi-position handle design can be applied to a wider range of users.

Power-assisted foot pedals, adapt to different exercising phase of users.

The seat can be adjusted to the user's desired range of motion when used.

Specifications

DIM: (L) 1280* (W) 1500* (H) 1600mm

N. W. : 228KG

Weight stack:

Standard: 80KG Max: 150KG

Muscles trained: Chest, Shoulder deltoid, Triceps
