

50*150mm flat oval tube combines with 60*120mm oval tube, makes the machines mature and elegant.

Design the machines according to the international advanced concept and improve on the original

basis. Resistance remains steady during the entire range of motion, making the movement exceptionally fluid.

Pure steel weight plate enhances the product durability.

Training counting & training time recodes make the movement more scientific and humanized.

Full closed PVC covers with one time contoured to keep user safe, increases the attraction and underlines the high quality.

Unique separated movement allows the user practice single arm, highlights the details and humanization of the products.

Aluminum alloy pulley with $\Phi 106.2\text{mm}$, improve the durability and keep movement smoothly,

it is easy to maintain.

The handle adopts TPV material, never damage and improves the durability.

Imported powder of painting, double rust clean, double lines cushion showing fashion.

The articulation link of the motion arm allows the user to be trained more freely according to users' natural motion.

Isolated handrails can train both arms at the same time or train alternately, making the strength training more balanced and efficient.

The seat can be adjusted to the user's desired range of motion when used.

Specifications

DIM: (L)1100*(W)1450*(H)1600mm

N. W. : 212KG

Weight stack:

Standard: 80KG

Max: 170KG

Muscles trained: Triceps, pectoralis major, serratus anterior, Deltoid
