

50*150mm flat oval tube combines with 60*120mm oval tube, makes the machines mature and elegant.

Design the machines according to the international advanced concept and improve on the original basis. Resistance remains steady during the entire range of motion, making the movement exceptionally fluid.

Pure steel weight plate enhances the product durability.

Training counting & training time recodes make the movement more scientific and humanized.

Full closed PVC covers with one time contoured to keep user safe, increases the attraction and underlines the high quality.

Unique separated movement allows the user practice single arm, highlights the details and humanization of the products.

Aluminum alloy pulley with $\Phi 106.2\text{mm}$, improve the durability and keep movement smoothly, it is easy to maintain.

The handle adopts TPV material, never damage and improves the durability. Imported powder of painting, doublerust clean, double lines cushion showing fashion.

Large foot pad can meet a variety of training requirements.

The resistance pattern is optimized by the cam mounted inside the foot support .

Fitting the parts of shock absorption , reduce noise when user training.

Adjustable seat, can adapt to different users' height.
